FACE

power Perfectly customizable for powerful results. This facial therapy adapts to fit your every concern — from acne to aging to sun damage — while you experience complete tranquility. It begins with a specially selected exfoliating mask to prepare your skin for extraction and detoxification, and concludes with either our Cool Beam or Ultrasonic therapies based on your desired result. Skin is invigorated, hydrated, and smooth.

true Tried and true! A thorough cleansing and application of a custom enzyme exfoliation perfectly preps the skin for complexion detox. Careful extractions follow — made as painless as possible by our skilled estheticians — and then a soothing mask, selected specifically for your skin type. Your face will feel refreshed and restored, and you'll feel ready to face the day. It's "truly" amazing!

cool beam Enjoy an incredibly relaxing facial therapy as you repair years of skin damage pain-free. In each Cool Beam session, a healing light is applied to the face, with particular focus on fine lines, sun spots, breakouts, and irritation. The antibacterial light sparks the production of collagen, softening fine lines as it gently reduces inflammation, diminishes acne, and hydrates. Suitable for any age and every skin type!

illuminate Put your best face forward with this sensory experience designed to cleanse, brighten and smooth your skin. Begin with a luxurious warming honey cleanser followed by a rich rosemary and algae mud masque to purify your pores and soothe the skin. A relaxing facial massage targets pressure points and gentle extractions are performed. The facial ends with a citric acid masque enhanced by copper mist, creating a collagen enhancing, invigorating experience for the skin.

lift Gravity? What gravity? This uplifting therapy utilizes gentle micro current waves to tone facial muscles, stimulate protein production, and build collagen. Muscle memory is restored, natural contours return, and under-eye puffiness is diminished. The therapy's impacts are preventative as well as corrective, so the sooner you start lifting, the better your skin will be!

ultrasonic The perfect combo of cleansing and correcting. The ultimate deep-pore cleansing with non-invasive ultrasonic waves make this therapy ideal for even the most sensitive skin types. Dull cells and excess oils are removed, paving the way for clearer and smoother skin. Healing nutrients go deep into the tissue to stimulate skin repair beneficial for both discoloration and scarring.

brighten Get a gorgeous glow going, courtesy of this fine-line-erasing, dark-spot-removing, total skin booster. The resurfacing mask infuses the face with vitamins and antioxidants, including green tea and fruit extracts. The rejuvenation of the skin is then completed with a soothing, hydrating mask of hyaluronic acid and anti-inflammatory ingredients.

smart peel Enliven your complexion with one of three Smart Peel options, selected just for your skin type. Technology-driven and botanically-based, these peels naturally lift dull skin while infusing nourishing, cell-stimulating botanicals below — all with little-to-no discomfort or residual redness. Gentle yet thorough extractions follow peel application, as does a luxurious facial massage. Relax into glowing skin.

z peel Gentle yet incredibly effective, our Japanese mushroom enzyme mask dissolves away excess dead skin while stimulating blood flow and encouraging natural detoxification. Careful extractions follow, and then the application of a customized mask. Fatigued skin is given new life, and signs of age melt away.

men's Tailored especially for the active urban man. Ultrasonic cleansing targets ingrown hairs and clogged pores, leaving the face refined and smooth, while skin soothers calm irritation and redness. Relaxation is guaranteed with face, neck, and shoulder massage.

back Don't let your face have all the fun! The back facial provides a complete cleansing for those hard-to-reach spots, combining extractions with brightening exfoliation to leave skin smooth, soft, and more even-toned. Highly recommended for the treatment of acne.

skincare revolution Whip your skin into amazing shape with our facial boot camp. Perfect prep for a big event such as a wedding or a reunion, this series of 4 to 12 custom facials is also recommended to guests who have been struggling with skin conditions for a prolonged period of time. Our structured approach will help you to clear up existing issues while preempting further damage and issues.

BODY (MASSAGE)

flow Love a deep tissue massage, but hate the pain? Then our signature massage is just the answer. Amazing choreographed waves of kneading open locked muscles, free energy blockages, and relieve tension. This therapy incorporates more lymphatic drainage than a traditional deep tissue, resulting in greater detoxification and an enhanced boost to the immune system.

fusion A Swedish-based therapy combining the best-known therapeutic massage practices to provide an unparalleled hour of relaxation. Rhythmic massage movements are coupled with the use of powerful aromatherapy oils. Customize your massage with your choice of an uplifting, detoxifying, or relaxing herbal blend. Available as a couples massage in select locations.

deep tissue Focus on those overworked muscles living well below the surface with this intensely therapeutic massage. Designed to relieve pain associated with muscle knots, heavy physical activity, and everyday stress, this therapy is deliberate and customized, targeting specific areas in need of relief. Available as a couples massage in select locations.

sports Customize this massage to fit your active lifestyle. A pre-event massage kicks overused and stressed muscles into gear using quick, stimulating strokes and dynamic stretching. For post-event, expect a restful yet thorough massage that repairs your fatigued muscles. Whatever your needs, this massage is built to improve flexibility, help prevent injuries, and prepare your mind and body for optimal performance.

prenatal Massaging for two? Designed specifically for women in the second and third trimesters of pregnancy, this deeply soothing therapy works to improve circulation, reduce swelling in hands and feet, and release tension in the lower back, neck, and shoulders. (note: not recommended for first trimester pregnancies)

om body therapy “tui na”* Bring balance to the body with this Chinese Taoist and martial arts based therapy. Multiple hand techniques including brushing, kneading, and rolling are used to massage the body, while acupressure techniques are integrated to better the flow of Qi, or energy, through the muscles. An excellent approach to healing tendons, ligaments, and joints.

shiatsu Finger and palm pressure, stretches, and other massage techniques come together to Shiat-you into a new state of wellbeing. This ancient therapy encourages the proper flow of Qi, or life energy, which in turn improves circulation, relieves stiff muscles, and alleviates stress. Guests should wear loose fitted clothing for Shiatsu, and expect to change positions throughout the massage.

acupuncture massage* Two supremely restorative practices join forces to rebalance mind and body alike. Acupuncture points are chosen based on your specific needs. Needling is followed by a relaxing massage that boosts results of the treatment. This therapy offers a great option for those looking to both improve wellbeing while enjoying real relaxation.

craniosacral therapy Relieve your headaches, stiff neck and achy back pain with this unique healing body therapy. Through gentle pressure and small rhythmic pulses, this therapy will clear blockages around the spine, skull and surrounding connective tissue to restore craniosacral rhythm. You will leave feeling alleviated, relaxed and tension-free.

reflexology Rebalance with reflexology, an ancient healing technique. Pressure is applied to distinct reflex points on the body using specific thumb, finger, and hand techniques, with particular emphasis on the feet. The therapy releases energy and improves circulation, contributing to overall wellbeing. Reflex and relax!

BODY (ACUPUNCTURE + ENERGETIC THERAPIES)

acupuncture* Needle your way to better health with acupuncture. This 5000-year-old curative practice calls for the painless insertion of tiny pins into distinct points on the body. It benefits all disease, as well as emotional and spiritual imbalances. While a single acupuncture session can provide relief, results are cumulative and multiple visits are therefore recommended.

cupping* Consider this needle-free therapy a reverse massage. Skin is lifted through suction, bringing blood to the surface and improving circulation. Cupping benefits the lungs, treating coughs and asthma, and combats pain in multiple areas of the body. Expect some painless discoloration on the skin.

reiki A unique, healing therapy, Reiki restores the body to equilibrium through the transfer of beneficial energy. Treatment can be localized to the site of a specific ailment or conducted across the body. You will enjoy feelings of warmth and comfort, and may very well find yourself in a deep state of relaxation.

vibrational therapy* Get a total tune up with this relaxing and gentle therapy, which leverages tuning forks to relieve pain, increase mental focus, and create a general sense of wellbeing. Specific points on the body may be targeted, as well as the overall aura. This non-invasive approach to healing is a perfect complement to other restorative therapies.

acu-organ detox* Acupuncture meets abdominal massage and an incredibly cleansing, detoxifying hour results. Begin your therapy with a tailored acupuncture session targeting the digestive system. Then relax with a hot oil abdominal massage. Toxins are released and organ function enhanced. You will feel lighter and energized across the day.

**All acupuncturists are independently licensed practitioners with a Master's of Science Degrees in Acupuncture and Oriental Medicine and are managed by IHW.*

BODY (SPECIALTY BODY THERAPIES + SCRUBS)

deep detox Reduce the appearance of cellulite while firming and toning the skin with this detoxifying therapy. The therapy begins by targeting problem areas with electric muscle stimulation and is followed by a Shea Butter Detox Masque infused with nourishing sake and circulation-boosting red pepper to further the detoxification process. The skin is then rehydrated with a deep massage using warm oil blended with ginger, rosemary and black pepper.

glow body scrub Polish your skin with exhale's signature body scrub therapy. Dry brushing and body scrubbing techniques are used in tandem to exfoliate and improve the skin while detoxifying the body and increasing circulation. A rich application of antioxidant moisturizer follows. It's the perfect prep for a new season...or just a new day. Added bonus — enjoy a take-home brush to keep the glow going!

hammam detox therapy Experience our signature body scrub therapy as you lounge inside the co-ed hammam. First, a head-to-toe wash of warm water will soften skin, increase perspiration, and stimulate detoxification. Then relax on the heated stone and experience an organic aromatherapy scrub customized to your preference of scent. Finally, all traces of scrub are rinsed away with soothing, cooling water, and an aromatherapy mist is applied to seal in the therapeutic benefits. (note: a bathing suit is required for this therapy)
