LOEWS MINNEAPOLIS HOTEL

MASSEAGE TREATMENTS

Sticks & Stones

Melt away stress with the warmth of sculpted basalt stones and handmade Birchwood massagers. The warm flowing Thermalance massage movements of heated stones and Birchwood sticks relieve tension, purify tissues and stimulates the metabolism. 100% natural oils and plant extracts combine with the heated stimuli, resulting in an all-over irresistible relaxation of muscle tension that enhances freedom of body movements. **80 minutes**

Candle Massage

Warm massage oil relaxes the body while sensory aromas calm the mind. This slow, comforting technique delivers a deep, relaxing massage designed to induce sleep and relieve mental tension. **50 or 80 minutes**

Hot Stone Massage

Using natural basalt hot stones, this massage therapy delivers deep, penetrating heat for muscle tension relief. The long continuous warmth of the smooth stones loosens muscles more quickly and deeply than in traditional massage while accelerating overall circulation and metabolism. Relax while revitalizing the central nervous system and opening up the meridians, or energy pathways. **80 minutes**

Gua Sha Massage

Gua Sha is a therapy with its roots in Traditional Chinese Medicine. It restores the circulation and Qi (chi) flow for immediate relief from muscle pain and stiffness. This Gua Sha treatment is invigorating as well as a relaxing massage, by using four heated specially shaped stones, aroma infused body oil and specific muscle mobility techniques. This treatment increases the circulation to the body, warming muscles and releasing tightness and tension. **50 or 80 minutes**

Herbal Compress Massage

Experience the healing power of this massage treatment to alleviate sore muscles and joint pain. A therapeutic application of herbal compresses relaxes stiff muscles and joints. Acupressure movements along energy Meridians and stretching techniques bring the body into balance. You will feel both intensely relaxed and energized in this restorative treatment. **50 or 80 minutes**

Prenatal Massage

Prenatal massage shares many of the goals of regular massage to relax tense muscles, ease sore spots, decrease swelling in the arms and legs, improve circulation and mobility, and just make you feel good. This treatment is tailored specifically to the needs of a pregnant woman and her changing body. **50 or 80 minutes**

Aromatherapy Massage

Exceptional massage techniques, combined with the effect of aroma body oils cause a transformation of body and mind that releases blockages within the body so energy can flow freely. Carefully selected body oils improve lymphatic circulation and promote recovery from demanding travel and business schedules. This massage reduces water tension and is ideal for jet-lagged bodies. **50 or 80 minutes**

Cupping Massage

This traditional Chinese treatment uses the combination of aroma body oils and the suction of a cup. The treatment opens the skin's pores, stimulating the flow of blood, balancing and realigning the flow of qi (chi), breaking up obstructions, and creating an avenue for toxins to be drawn from the body. The benefits of increased circulation will relieve back and neck pains, stiff muscles, and fatigue. **50 minutes**
